

The logo consists of two red squares. The left square contains a white stylized letter 'C', and the right square contains a white stylized letter 'D'.

**CONCAST**

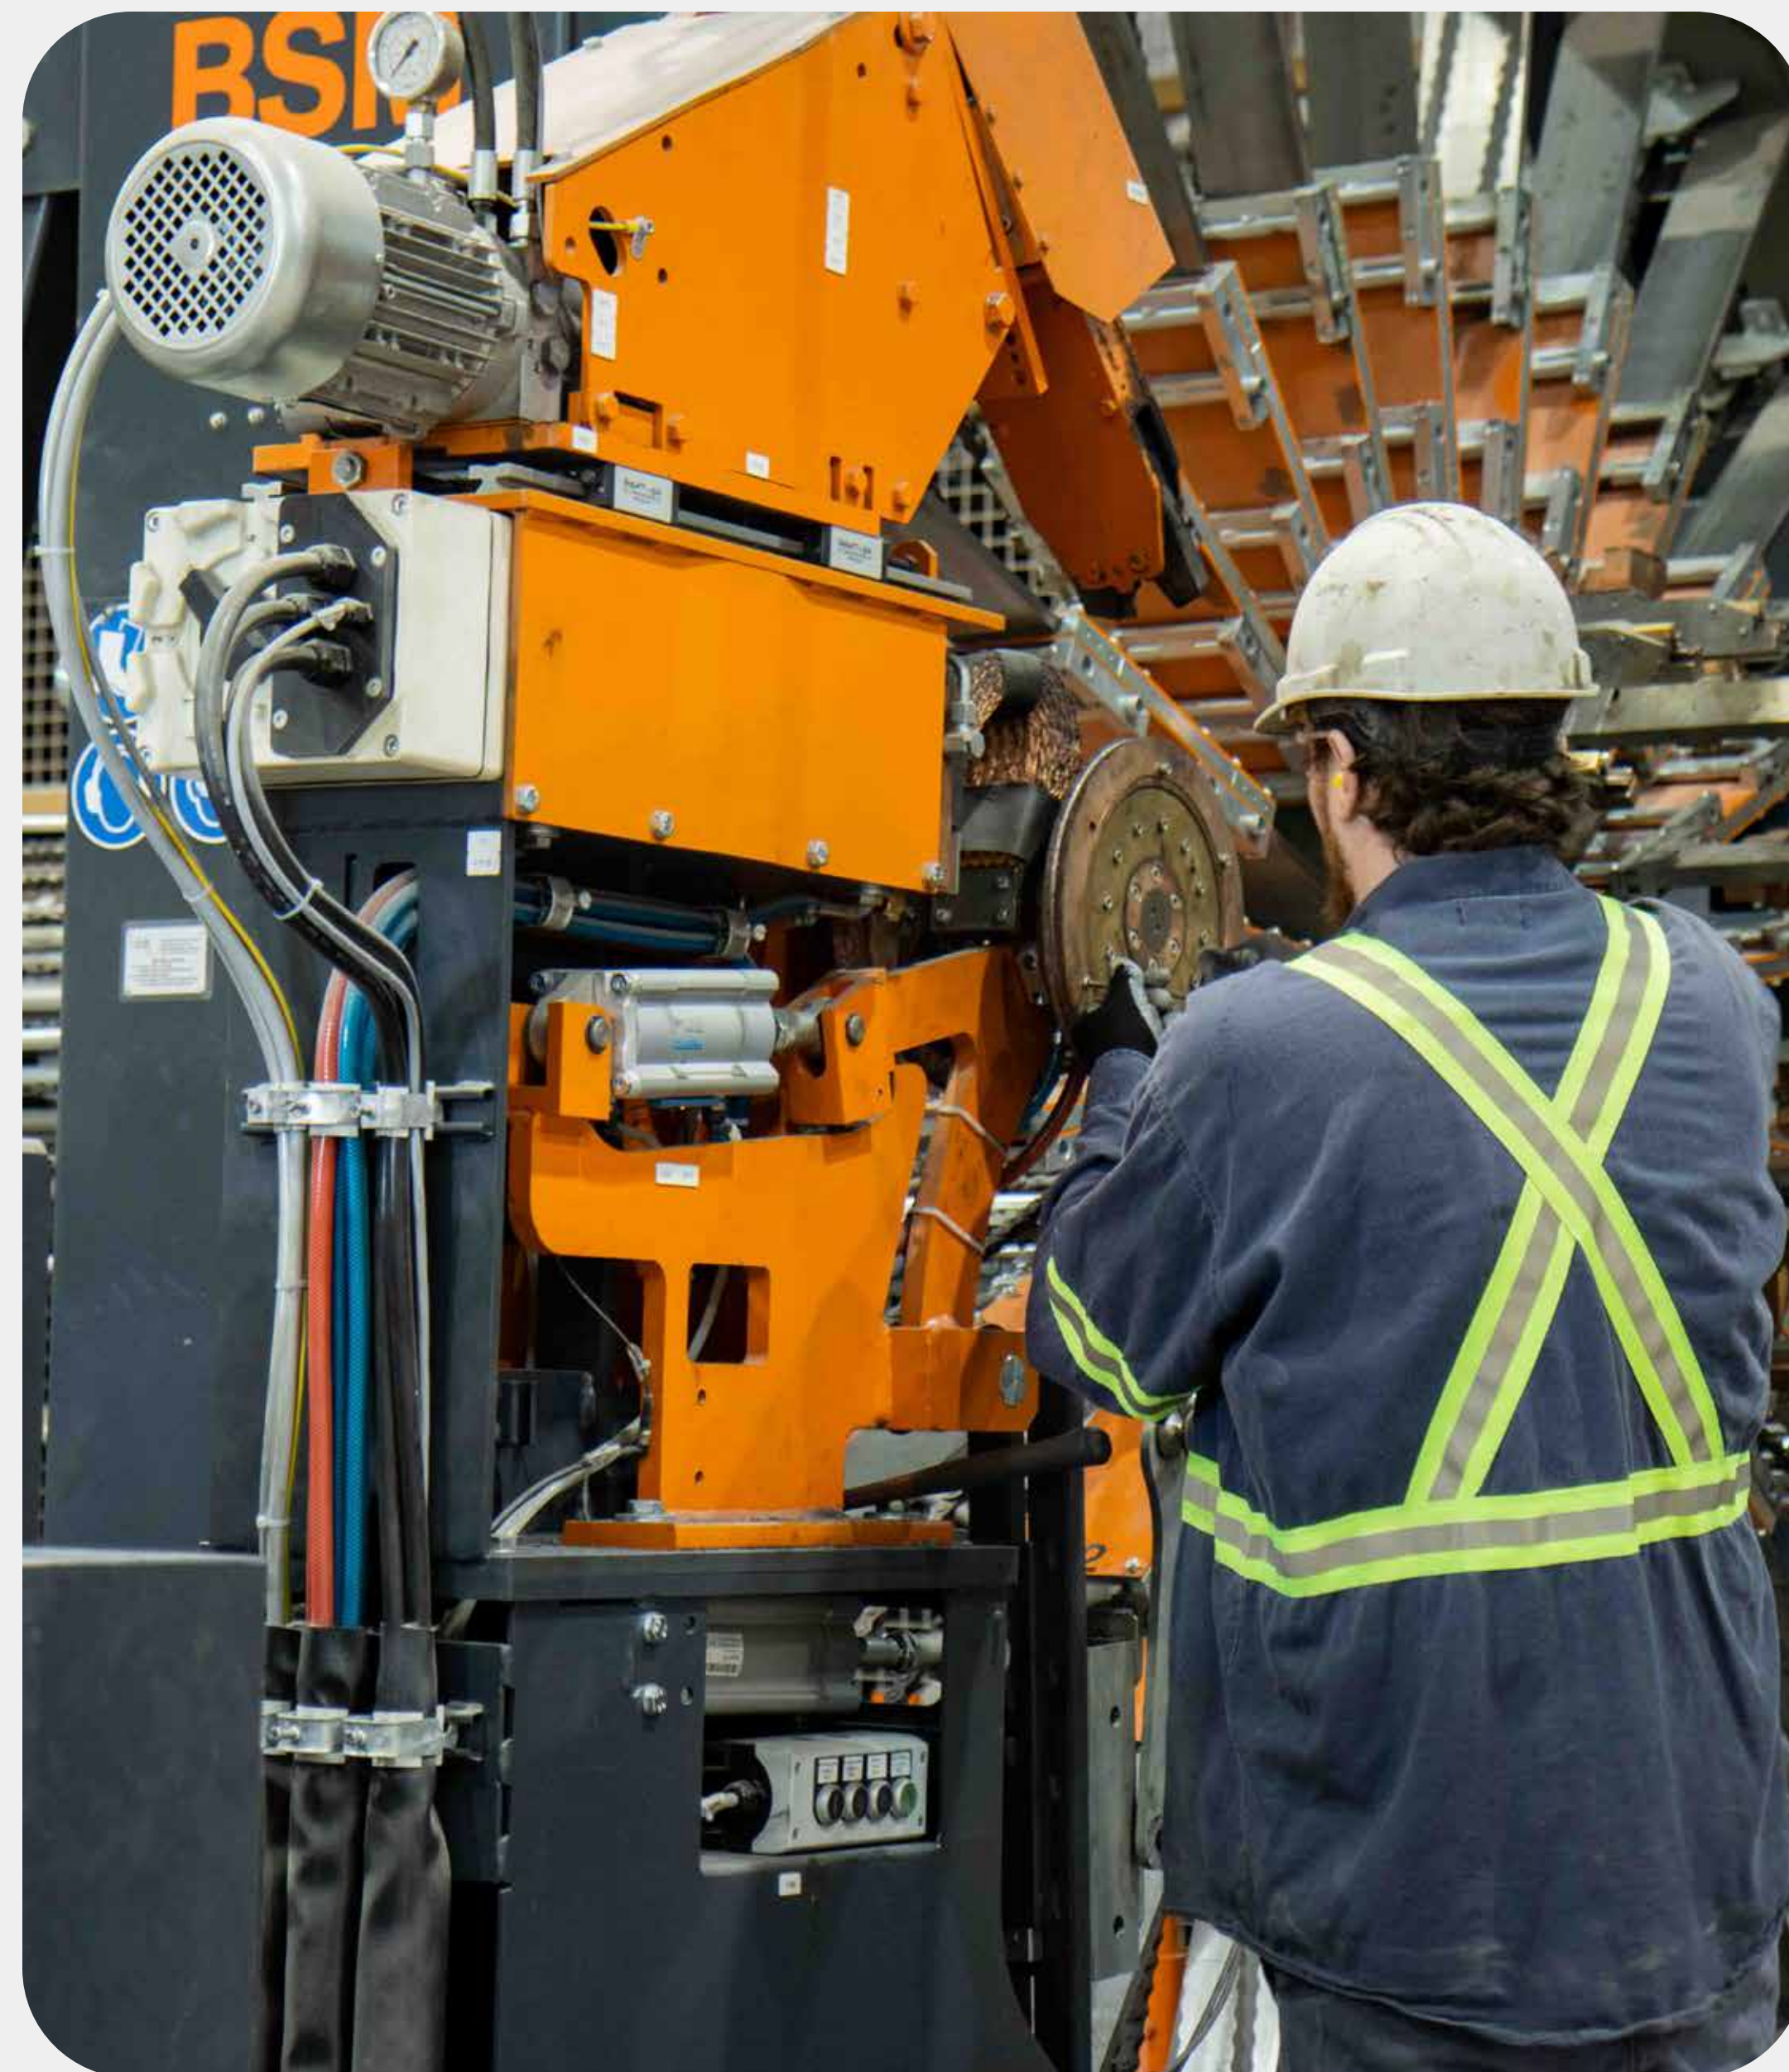

# BRIDGING THE FUTURE

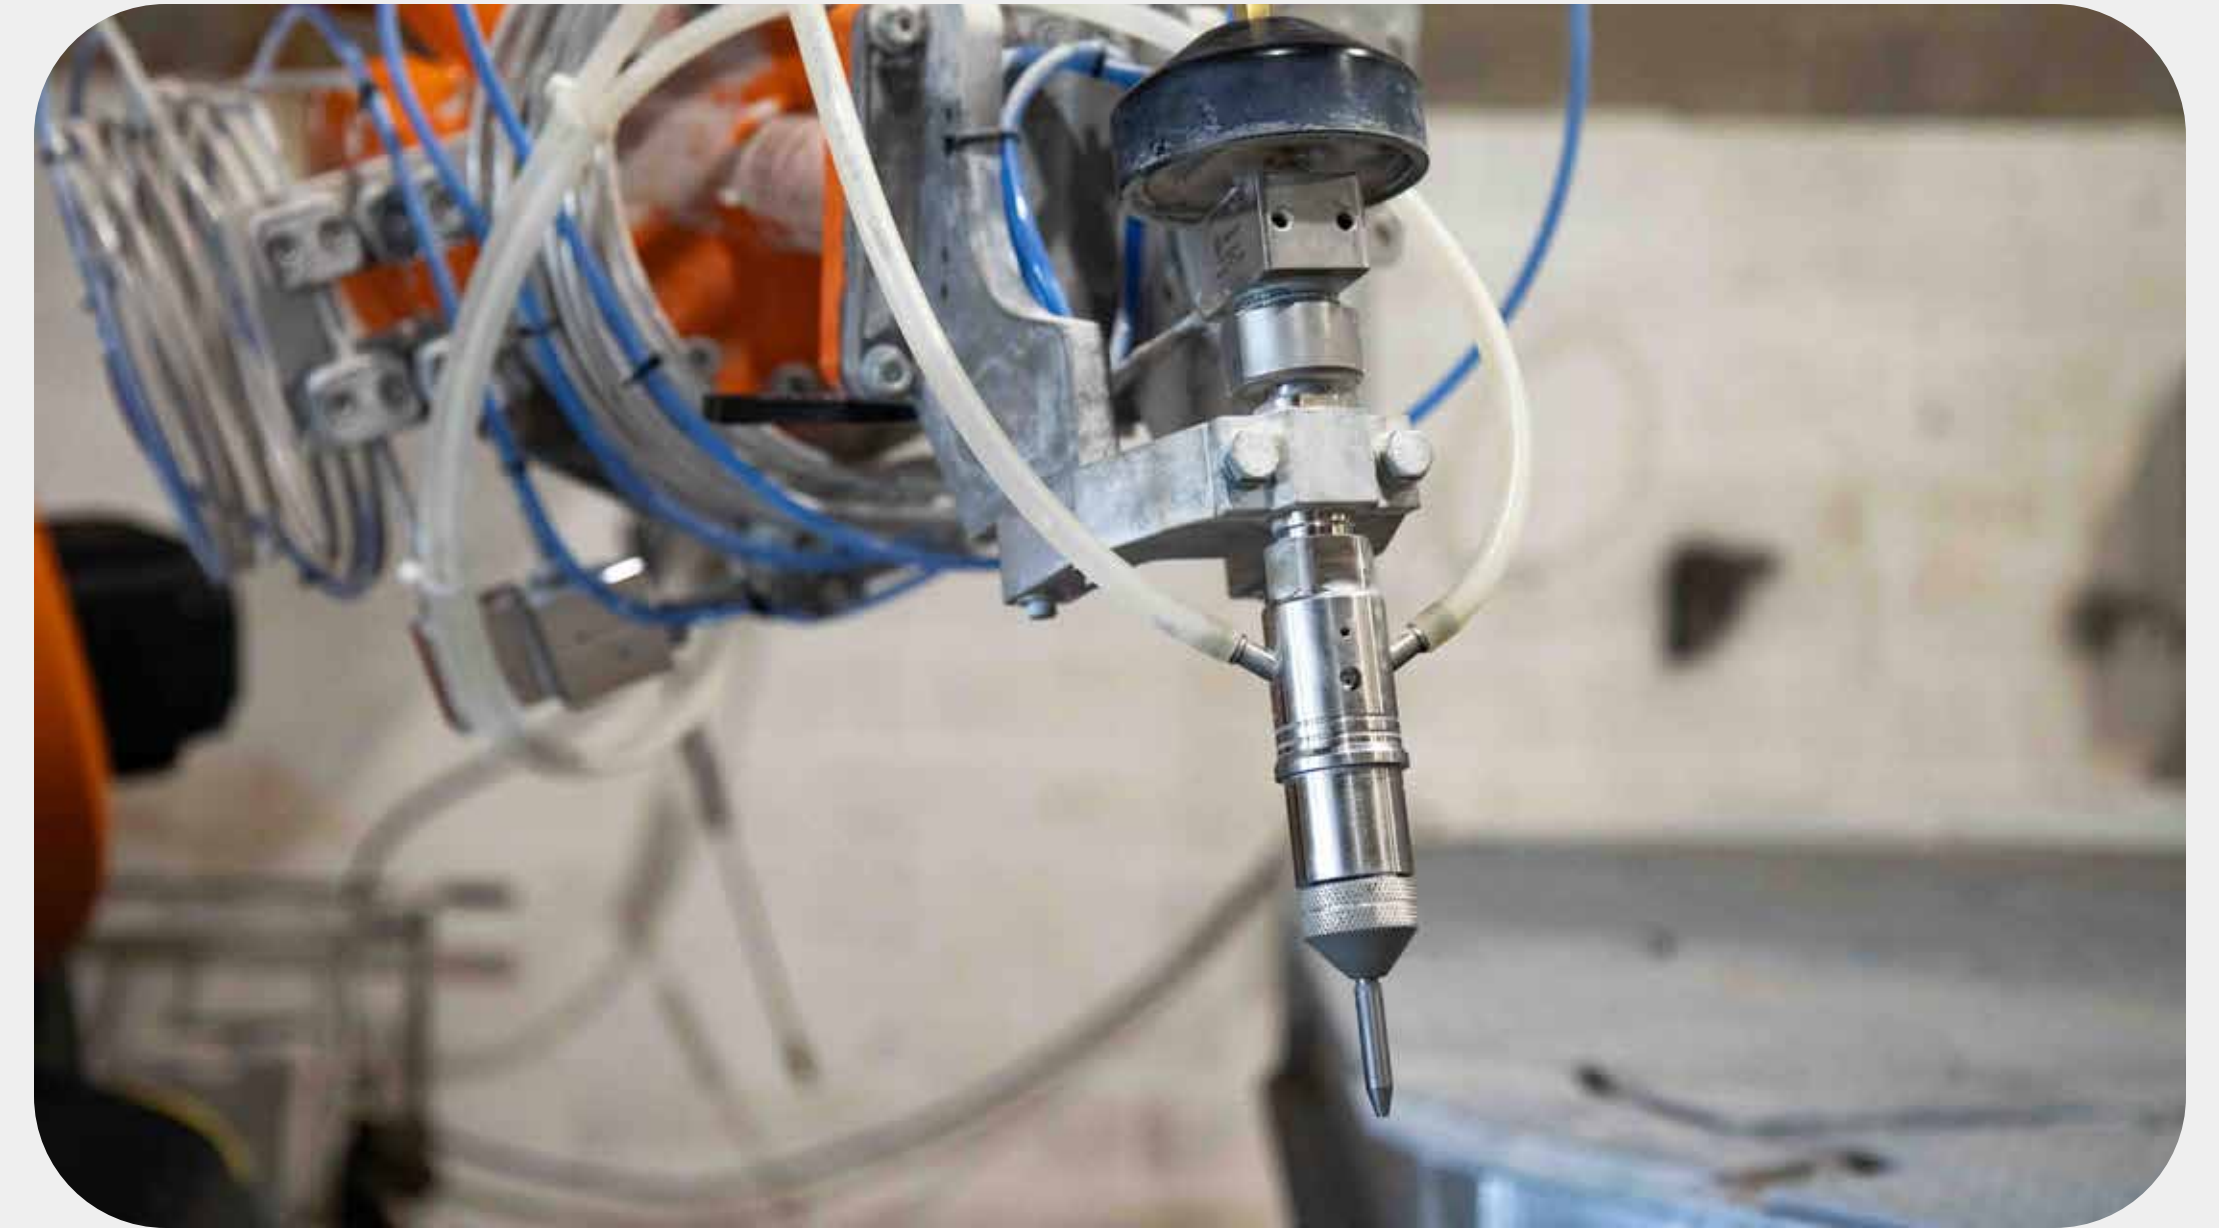

**AS THE 2023 MUNICIPAL  
ENGINEERS ASSOCIATION  
CONFERENCE PLATINUM  
SPONSOR, CONCAST  
WELCOMES YOU.**

# CONCAST. CONSTRUCT. CONNECT.

- 
- Full service supplier to the sewer and watermain industry.
  - Provide a comprehensive range of infrastructure products, including PERFECT PIPE.
  - Also provide custom applications based on customer needs.
  - Guelph facility offers a 120,000 square foot drycast facility and 30,000 square foot wetcast facility.
  - Oakville operation consists of 80,000 square feet of innovative manufacturing space and 9,000 square feet of auxiliary space.
  - We take a total service approach.
- 

# A REVOLUTIONARY INNOVATION

## Introducing the High-Pressure, Robotic Cutting System

- High-pressure, automated, robotic cutting system.
- Showcases how Concast is moving into a new age of production.
- Eliminates dug holes into concrete structures.
- Provides higher quality connections.

# NOW LAUNCHING AT CONCAST

## Versatile High Density Polyethylene (HDPE)

---

- A high-density polyethylene (HDPE) lined concrete manhole.
  - Standard manholes are made of concrete.
  - Manholes on sanitary systems are subject to corrosion from hydrogen sulfide gas (H<sub>2</sub>S).
  - The HDPE liner is inert to this gas and protects the manholes.
  - Also provides a watertight system.
- 

WE LOOK FORWARD  
TO BRIDGING THE  
FUTURE TOGETHER.

THANK YOU FOR JOINING  
US AT THE MUNICIPAL  
ENGINEERS ASSOCIATION  
CONFERENCE.
