

Posting For: City of London

Position: Environmental Services Engineer, Water

Position Type: Permanent, Full-time

File #: 858

The Corporation of the City of London strives to foster a workplace in which all individuals maximize their potential, regardless of their differences. We are committed to attracting, engaging, developing and celebrating exceptional people in public service who are representative of our community.

Summary:

Reporting to the Division Manager, Water Engineering, the Environmental Services Engineer – Water, assists in the planning, design, management, construction, and operation of the Waterworks system. This position develops, implements, and promotes water efficiency programs in the City of London to ensure efficient water system operation and maintenance.

Qualifications/Experience:

- Undergraduate degree in Civil Engineering or similar engineering degree with demonstrated experience in the Civil field.
- Four (4) years or more of experience building and maintaining civil infrastructure, particularly drinking water infrastructure.
- Experience in a leadership or administrative capacity; managing contractors and/or consultants, or an equivalent combination of education and related professional and lived community experience.
- Registered Professional Engineer in the Province of Ontario.
- Demonstrated knowledge and experience in the above identified areas of accountability with an understanding of the area's programs and services and how the work of the area aligns with the objectives of the Division.
- Demonstrated analytical and business planning skills with a proven track record for effectively implementing and monitoring programs and services.
- Demonstrated positive and proactive leadership capabilities, adept at leading a group of employees, contracted services and consultants; demonstrated commitment to developing high performance teams.
- Demonstrated ability to inspire the people they lead through productive and honest dialogue, with personal integrity and actions.

- Ability to be a trusted advisor and/or advocate in sensitive and/or emotionally charged situations.
- Demonstrated perseverance and resilience in addressing and escalating, as required, challenges and emergent issues.
- Proven commitment to the safety of employees with knowledge of the Occupational Health and Safety Act and applicable regulations as it relates to the position.
- Ability to provide a high level of attention to detail, make sense of data and solve problems.
- Highly developed interpersonal and customer services skills, including conflict resolution and problem solving; ability to skillfully communicate multiple perspectives and at times provide alternate concepts or solutions; political acumen to identify and manage issues.
- Ability to understand the importance of service delivery; implement initiatives that support the section's customers in a timely and effective way.
- Computer literacy in Microsoft Office and related software and database applications; advanced knowledge of computer software programs that may include hydraulic and water modelling, GIS and database management would be an asset.
- Must possess a valid class 'G' driver's license.

Compensation:

\$97,932 to \$128,215

This posting is for one (1) permanent, full-time position.
