

2025 Municipal Paving Forecast

Background

Good Roads (previously OGRA) will be delivering the annual Municipal Paving Forecast presentation at the 2025 Good Roads Conference. Your assistance in providing background information on your municipality's 2025 hot mix asphalt (HMA) paving program is greatly appreciated. Thank you for taking the time to respond to this brief survey.

Aggregated data from this survey and other studies will be used to publish the 2025 ON Paving Report. You can read last year's report here: [2024 Ontario Paving Report](#)

If you have any questions or if you need a PDF copy of the survey, contact Amin@goodroads.ca

The survey will close on March 14th, 2025.

1. Do you work for a municipality / township?

Yes

No

2025 Municipal Paving Forecast

PART-1: Your Info

* 2. Municipality / Township

3. Contact Info

(Optional)

Name

Email Address

2025 Municipal Paving Forecast

PART-2: Quantities & Forecast

* 4. What is your municipality's expected asphalt capital paving tonnage for this year **2025** (in metric tonnes)

6. How many kilometers of in-place recycling (HIR or CIR) is your municipality expecting to place in **2025**?
(Lane km)

7. How much WMA is planned/expected to be used in **2025**?
(metric tonnes)

2025 Municipal Paving Forecast

PART-3: Operations

* 8. Out of all your Municipality's paving projects, how many included the use of RAP?
(Give a rough estimate)

- All (100% of all projects included the use of RAP)
- Most
- Some
- None (0% of our paving projects included RAP)

* 9. How many **Potholes** did your municipality fill/fix in **2024**?
(give rough answer, or on average)

10. Are you piloting new paving products/technologies in **2025** or **2024**?

- NO
- YES
(please describe)

2025 Municipal Paving Forecast

PART-4: Specifications

* 11. Does your municipality allow the use of RAP with Hot Mix in your paving contracts?

Yes

No

12. How do you modify your asphalt paving related OPS specs?

%AC

%RAP Allowed

Air Voids

Additives (polymers and/or fibers)

Gradation

None (we use OPS specs as written)

Other (please specify)

13. How many standard asphalt mixes does your municipality specify?

2025 Municipal Paving Forecast

PART-5 Quality Assurance

14. Does your municipality's project or inspection team conduct on-site visits to HMA production plants to verify material quality and production processes?

- Yes
- No

15. Would your municipal paving projects benefit from a 3rd party HMA plant certification process?

- Yes
- No

* 16. What aspects of asphalt plant operation should a certification process prioritize (e.g., mix quality, environmental compliance, equipment standards, testing procedures)?

1
2
3

17. During the **2024** Paving season, how often did you have to invoke the referee testing procedure for your asphalt paving projects?

- 0
- 1
- 2-5
- 5-10
- >10
- NOT SURE
