

The OPS Environmental Committee is currently in the process of updating OPSS.MUNI 180, General Specification For The Management Of Excess Materials, in order to reflect the requirements of O.Reg 406/19 for On-Site and Excess Soil Management under the Environmental Protection Act.

- **OPSS.MUNI 182,**
General Specification For Environmental Protection For Construction In Waterbodies and On Waterbody Banks
- **OPSS.MUNI 810,**
Construction Specification For Rootward Structures For Waterbody Banks
- **OPSS.MUNI 811,**
Construction Specification For Large Woody Debris For Waterbody Banks
- **OPSS.MUNI 812,**
Construction Specification For Lunkers

If you have feedback regarding use of this specification, please send comments to **Don Kudo** - Chair of OPS Environmental Committee; donk@Wellington.ca
