# Indigenous History

Paleo Period, retreat of the ice sheets brought hunters here following game - 11,000 years ago.

Archaic Period, temperature increases and forest growth provides more resources and human activity here - 9,000 years ago

Woodland Period, transition to hunting and gathering and growing of crops, use of the local chert for tools and local clay for pottery, the land is transformed by human hands - 3,000 years ago

Historic Period, when European contact transformed trading and indigenous communities - 400 years ago

**Built Heritage**

The map shows a section of Berkeley, California, with streets including King, Arthur, and Bridge. Key landmarks and buildings are labeled, such as the Revere Hotel, Oatmeal & Barley Mills, and the Eureka Flour Mills. The map also shows the Berkeley River and the Berkeley Bridge. A large red banner with the text "Built Heritage" is overlaid on the map.
